## INTRODUCTION

This Index covers 18 years of *Russell Society News*, 1974 through 1991. Issues 1 through 72. It contains 2696 entries. Items that refer to past events that are no longer of interest have been dropped. Some items are indexed in more than one place: a book review, for example, may appear under the author's name, the reviewer's name, the book's title, and/or under "book".

A 4-Year Index, for the years 1974-1977, will be found in Issue 16, Item 56. A 6-Year Index, for the years 1978-1983, is included in Issue 40, Item 40.

Each issue has its own Index. There are some early exceptions: Issues 1-7 have no Indexes. Issue 8 has its Index on Page 1. Starting with Issue 9, Indexes are on the last page (or next-to-last page when there is a ballot on the last page.)

See the first 2 lines of Page "A - Annual" for an explanation of the numbers that tell where newsletter items are located.

Abbreviations are explained at the point where they are used. For instance, the explanation -- 00 = Other Organizations -- is located in the "0" section of the Index, just before many entries that begin with "00".

The Library of Congress has a complete set of *Russell Society News* and Indexes, as do some university libraries, including Harvard and Princeton.

Please notify us of errors or omissions.
