

June 15, 1974

I have been working on something
and this far covered the following

~~and this far covered the following~~ in part,

- 1 The Nature of Ontology
- 2 Monism vs. Pluralism
- 3 Neutral Monism
- 4 Change.

I had intended to continue
as follows

- 5 Belief
- 6 Causality
- 7 Truth
- 8 Knowledge
- 9 Freedom
- 10 Will
- 11 Love.

I had considered the overall subject
to be - Mystical Rebellion based
upon a new Theory of Truth as regards
Time.

The problem is that Belief is a very complex psychological matter and the subject of psychological causal laws should be discussed 1st. ~~It~~ As a matter of order ^{things} physical causal laws should also be discussed 1st. Thus the following scheme suggests itself.

- 1 The Nature of Ontology
- 2 Monism vs Pluralism
- 3 Neutral monism
- 4 Change
- 5 Physical Causal Laws
- 6 Psychological Causal Laws (in belief)
- 7 Truth
- 8 Knowledge
- 9 Freedom
- 10 Will
- 11 Law.

However #5 + 6 are too broad & will need to be subdivided, as will certain other chapters as #8, also there is ~~not~~ much.
